

High-speed Rectangle Paper Bowl Forming Machine

Machine Description:

KRB-S75 High speed square/rectangle cup forming machine is a professional equipment to produce the container at "square/rectangular". The machine adopts automatic rotary paper suction mechanism the square customized molding die, the whole machine is driven by open gear, and the bottom is heated and extruded by hot air. It is suitable for making special cups, such as square bottom and round top, square bottom and square top, and oval bottom.

Machine Details

Machine Model	KRB-S75
Cup Specification	6-28oz
Cup Forming Size	Top diameter: 60-100mm
	Bottom diameter:40-75mm
	Height:60-180mm
Paper Thickness	170-350gsm
Paper material	Single/double PE/PLA/Glue coated paper
Machine Speed	65-75pcs/min
Power Supply	380V 50HZ 3 Phase
General Power	15KW
Gas Source	0.6 m ³ /min
Weight	3200KG

Electrical Configuration Sheet

Name	Quantity (PC)	Brand
PLC	1	Inovance(China)
Touch Screen	1	
Frequency converter	1	
Servo Motor	1	
Miniature circuit breaker	1	Schneider(France)
AC contactor	7	
Miniature relay	1	
Switching Mode Power Supply	1	Meanwell(Taiwan)
Relay board 8 groups	2	GM(China)
Solid state relay	3	FOTECK(Taiwan)
Button	6	Autonics(Korea)
Temperature Controller	1	
Encoder	1	
Photoelectric switch	7	
Proximity switch	1
